GENERAL INFORMATION

1. THE JOINT UNIFORM TELEPHONE COMMUNICATION PRECEDENCE SYSTEM

a. GENERAL INSTRUCTIONS

(1) The Joint Uniform Telephone Communications precedence system is directed for use by all authorized users of the voice communication facilities of the Department of Defense. Since the effectiveness of the system depends upon cooperation on the part of persons authorized to employ it, customers must be familiar with the purpose that is served by each precedence category and the types of calls which may be assigned to the respective precedence. Each authorized user should consider whether a call requires special precedence and exercise care not to request or utilize one higher than the circumstances require.

(2) The Joint Uniform Telephone Communications precedence system does not make provisions for the conduct of test and exercise calls. Those activities or individuals authorized or required to conduct such tests and exercises will employ precedence consistent with the nature of the test or exercise, and upon contacting the called party will identify the precedence of the call.
