HOW TO REMOVE SENSITIVE AREAS FROM MYBIZ+ FOR HR PROFESSIONALS

The new MYBIZ+ homepage defaults to showing a lot of personal information about you, which is great except if you are a HR professional who may be teaching someone or learning something new from someone. Here is how you can remove that information so when you login it is not displayed by default, but you can access it anytime using the buttons at the bottom of the page.

- Once you login click on **MANAGE MY VIEWS**.

[Manage My Views](#) 

- Each View will have an X in the top right corner. Click on the ⊗ for the area(s) you wish to remove from your default login. You can use the double arrow icon next to the ⊗ to swap the view with one that is not displayed. Once you are finished click the **DONE** link.

[Add](#) | [Reset](#) | [Done](#) 

- If you change your mind and want the default view back, click on **Modify my view** and **RESET** to revert back to the defaults.
