# CREDO

Service in the Sea Services presents unique challenges for Marines and Sailors. CREDO Okinawa offers a variety of retreats and workshops that strengthen the religious, moral, and spiritual well-being of Department of the Navy service members and families, helping enhance and resiliency for mission readiness and operational effectiveness. Our flagship programs are our retreats and workshops for individuals (personal resiliency), married couples, and families.

**Personal Resiliency Retreats (PRRs)** are provided to uniformed service members, with an emphasis on those who are single or unaccompanied. PRRs are held at local resorts and hotels for three days and two nights. During the retreat, individuals will attend sessions designed to help them understand their personalities better, contribute to team effectiveness and mission execution, explore their own personal core values, and improve their communication and problem-solving skills. The schedule includes plenty of free time for participants to enjoy the sunshine and resort amenities while building healthy relationships with others.

**Marriage Enrichment Retreats (MERs)** are provided to uniformed service members and their spouses. Given the nature of these retreats, childcare is not provided. MERs are held at local resorts and hotels for three days and two nights. During the retreat, couples will have the opportunity to work on better understanding themselves and each other, their personalities and perspectives, and their communication styles to aid in improving conflict-resolution skills. The schedule includes plenty of free time for couples to enjoy the sunshine and resort amenities while spending quality time together to practice what they learn.

**Family Enrichment Retreats (FERs)** are provided at no cost to uniformed service members and their dependents. FERs are held at local resorts and hotels for three days and two nights. During the retreat, families will have the opportunity to learn tools designed to increase healthy communication, grow in understanding each family member's value and worth, and foster a sense of belonging and togetherness. Some sessions include the entire family. On occasion, some retreats may have breakouts for parents, young children, and teenagers. The schedule includes plenty of free time for families to enjoy the sunshine and resort amenities while spending quality time together to practice what they learn.
