JOB SUMMARY:

The Navy and Marine Corps team offers innovative, exciting and meaningful work linking military and civilian talents to achieve our mission and safeguard our freedoms. Department of the Navy provides competitive salaries, comprehensive benefits, and extensive professional development and training. From pipefitters to accountants, scientists to engineers, doctors to nurses- the careers and opportunities to make a difference are endless. Civilian careers-where purpose and patriotism unite!

This position is located with the Facilities Planning Section of the Public Works Branch (PWB), Facilities Engineer Division of Marine Corps Base, Camp Smedley D. Butler, Okinawa, Japan (Camp Foster). As the Supervisory Interdisciplinary Engineer you are responsible for planning, developing, programming, and executing facilities projects for Marine Corps Base Japan.

KEY REQUIREMENTS:

Must be registered for Selective Service, see Legal & Regulatory Guidance.
Suitable for Federal employment as determined by background investigation.
Selectee may be required to successfully complete a probationary period.
You must obtain and maintain a Secret security clearance.

DUTIES:

- Prepare and manage Military Construction (MCON) and non-Appropriated Fund (NAF) annual programs, assembling and prioritizing projects.
- Formulate, prioritize, and manage annual and five-year programs for Government of Japan construction projects.
- Assure discrepancies or inadequacies are corrected and plans revised prior to actual construction.
- Perform functional design reviews to ensure compliance with the intent and requirements of the design criteria package.

QUALIFICATIONS REQUIRED:

In order to qualify for this position, your resume must provide sufficient experience and/or education, knowledge, skills, and abilities, to perform the duties of the specific position for which you are being

considered. Your resume is the key means we have for evaluating your skills, knowledge, and abilities, as they relate to this position. Therefore, we encourage you to be clear and specific when describing your experience.

Basic Requirements for Engineer:

A bachelor's or higher degree in professional engineering. To be acceptable, the curriculum must: (1) be in a school of engineering with at least one curriculum accredited by the Accreditation Board for Engineering and Technology (ABET) as a professional engineering curriculum; or (2) include differential and integral calculus and courses (more advanced than first-year physics and chemistry) in five of the following seven areas of engineering science or physics: (a) statics, dynamics; (b) strength of materials (stress-strain relationships); (c) fluid mechanics, hydraulics; (d) thermodynamics; (e) electrical fields and circuits; (f) nature and properties of materials (relating particle and aggregate structure to properties); and (g) any other comparable area of fundamental engineering science or physics, such as optics, heat transfer, soil mechanics, or electronics.

OR

Combination of education and experience -- college-level education, training, and/or technical experience that furnished (1) a thorough knowledge of the physical and mathematical sciences underlying professional engineering, and (2) a good understanding, both theoretical and practical, of the engineering sciences and techniques and their applications to one of the branches of engineering. The adequacy of such background must be demonstrated by one of the following:

- *Professional registration* -- Current registration as a professional engineer by any State, the District of Columbia, Guam, or Puerto Rico. Absent other means of qualifying under this standard, those applicants who achieved such registration by means other than written test (e.g., State grandfather or eminence provisions) are eligible only for positions that are within or closely related to the specialty field of their registration. For example, an applicant who attains registration through a State Board's eminence provision as a manufacturing engineer typically would be rated eligible only for manufacturing engineering positions.
- *Written Test*-- Evidence of having successfully passed the Engineer-in-Training (EIT) examination, or the written test required for professional registration, which is administered by the Boards of Engineering Examiners in the various States, the District of Columbia, Guam, and Puerto Rico.

Applicants who have passed the EIT examination and have completed all the requirements for either (a) a bachelor's degree in engineering technology (BET) from an accredited college or university that included 60 semester hours of courses in the physical, mathematical, and engineering sciences, or (b) a BET from a program accredited by the Accreditation Board for Engineering and Technology (ABET) may be rated eligible for certain engineering positions at GS-5. Eligibility is limited to positions that are within or closely related to the specialty field of the engineering technology program. Applicants for positions that involve highly technical research, development, or similar functions requiring an advanced level of competence in basic science must meet the basic requirements in paragraph A.

Because of the diversity in kind and quality of BET programs, graduates of other BET programs are required to complete at least 1 year of additional education or highly technical work experience of such nature as to provide reasonable assurance of the possession of the knowledge, skills, and abilities required for professional engineering competence. The adequacy of this background must be demonstrated by passing the EIT examination.

- *Specified academic courses* -- Successful completion of at least 60 semester hours of courses in the physical, mathematical, and engineering sciences and in engineering that included the courses specified in the basic requirements. The courses must be fully acceptable toward

meeting the requirements of a professional engineering curriculum as described in paragraph A.

- *Related curriculum* -- Successful completion of a curriculum leading to a bachelor's degree in engineering technology or in an appropriate professional field, e.g., physics, chemistry, architecture, computer science, mathematics, hydrology, or geology, may be accepted in lieu of a degree in engineering, provided the applicant has had at least 1 year of professional engineering experience acquired under professional engineering supervision and guidance. Ordinarily there should be either an established plan of intensive training to develop professional engineering competence, or several years of prior professional engineering-type experience, e.g., in interdisciplinary positions. (The above examples of related curricula are not all-inclusive.)

Basic Requirements for Architect:

1. A bachelor's or higher degree from an accredited college or university in architecture; or related field that included 60 semester hours of course work in architecture or related disciplines of which at least (1) 30 semester hours were in architectural design, and (2) 6 semester hours were in each of the following: structural technology, properties of materials and methods of construction, and environmental control systems.

OR

2. Combination of education and experience -- college-level education, training, and/or technical experience that furnished (1) a thorough knowledge of the arts and sciences underlying professional architecture, and (2) a good understanding, both theoretical and practical, of the architectural principles, methods, and techniques and their applications to the design and construction or improvement of buildings. The adequacy of such background must be demonstrated by at least one of the following:
 1. *Related Curriculum:* Degree in architectural engineering may be accepted as satisfying in full the basic requirements, provided the completed course work in architectural engineering provided knowledge, skills, and abilities substantially equivalent to those provided in the courses specified in paragraph A. The curriculum for a degree in either architecture or architectural engineering covers function, esthetics, site, structure, economics, mechanical-electrical, and other engineering problems related to the design and construction of buildings primarily (but not exclusively) intended to house human activities. The courses required for a degree in architecture generally place emphasis upon planning, esthetics, and materials and methods of construction, while the courses for an architectural engineering degree place equal or greater weight on the technical engineering aspects such as structural systems, mechanical systems, and the properties of materials. Because of this difference in emphasis, persons with degrees in architecture may have a preference for work assignments that offer greater opportunities for them to express their artistic and creative abilities. As a result, they may be more concerned with planning and design aspects of architecture, and persons with degrees in architectural engineering may be more engaged in aspects emphasizing technical engineering considerations.
 2. *Experience:* An applicant lacking a degree in architecture must have had 1 year of experience in an architect's office or in architectural work for each year short of graduation from a program of study in architecture. In the absence of college courses, 5 years of such experience is required. This experience must have demonstrated that the applicant has acquired a thorough knowledge of the fundamental principles and theories of professional architecture.

ADDITIONAL REQUIREMENTS

Your resume must demonstrate at least one year of specialized experience at or equivalent to the GS-12 grade level or pay band in the Federal service or equivalent experience in the private or public sector coordinating public works products and services; planning and monitoring facility design, maintenance, construction, facility engineering and planning, and demolition services; and developing and managing budgets for facilities.

PART-TIME OR UNPAID EXPERIENCE: Credit will be given for appropriate unpaid and or part-time work. You must clearly identify the duties and responsibilities in each position held, starting and end dates (Month/Year) and the total number of hours per week.

EDUCATION:

Are you using your education to qualify? For positions requiring positive education requirements, or if you are using education to meet all or part of the qualification requirements, you must submit a copy of your transcripts or an itemized list of college courses which includes equivalent information from the transcript (course title, semester/quarter hours, and grade/degree earned). See OPM's [General Policies](#) for information on crediting education.

Education completed in foreign colleges or universities may be used to meet the qualification requirements if the applicant can provide documentation indicating that the foreign education is comparable to that received in an accredited educational institution in the United States. It is the responsibility of the applicant to provide such evidence when applying for further information, visit: <http://www.ed.gov/about/offices/list/ous/international/usnei/us/edlite-visitus-forrecog.html>.

REQUIREMENTS:

Generally, current Federal employees applying for GS jobs must serve at least one year at the next lower grade level. This requirement is called time-in-grade. **All qualifications and time-in-grade requirements must be met by the closing date of this announcement and clearly documented in your resume.**

Selectee is required to participate in the Department of Defense direct deposit of pay program.

A Secret security clearance is a requirement of this position. Failure to obtain and maintain the required level of clearance may result in the withdrawal of a position offer or removal. If you possess a security clearance, please indicate the level and termination date in your resume.

U.S. Citizenship: You must be a U. S. citizen (not dual citizen) to qualify for this position due to security clearance requirements.

Dual citizenship: If you have Dual Citizenship and possess a foreign passport, you will be required to surrender it to the proper authorities to be able to obtain and maintain a Secret clearance.

Work Conditions: Work may require some walking and climbing when performing on-site investigations and inspections. Routing on-site investigations may also involve exposure to such conditions as hazards associated with buildings and facilities under construction.

Travel: Occasional travel is required.

Driver's License Requirement: A valid driver's license is required for this position.

Physical: Applicants for this position must pass a pre-employment medical examination.

Supervisory: This is a supervisory position. If appointed to this position you must serve a one year supervisory probation period, unless you have already completed one as a manager. **This position has been identified as supervisory. As such you are required to document any work experience, on your application, that provided you the ability to supervise (including knowledge and support of EEO programs and leadership skills).

Emergency-Essential (EE) position: In the event of a crisis situation or war, the incumbent must continue to perform assigned duties to support mission requirements until relieved by proper authority. Incumbent must sign a DD 2365 (DoD Civilian employee overseas E-E position agreement) and must be removed from his/her military recall status if alternatives for filling the position during an emergency are not available.

Interdisciplinary jobs: This position includes duties that are covered by more than one occupational field (series). If you work in any of the occupational fields identified or have education or experience in more than one of the fields, you may apply and will be considered (for targeted positions).

HOW YOU WILL BE EVALUATED:

When the application process is complete, your application package will be reviewed to determine if you meet the hiring eligibility and qualification requirements listed in this announcement. You will be rated based on the information provided in your resume and your supporting documentation to determine your ability to demonstrate the following knowledge, skills, and abilities/competencies:

1. KNOWLEDGE OF FACILITIES PLANNING AND DESIGN
2. ABILITY TO PLAN CONSTRUCTION PROJECTS
3. LEADERSHIP SKILLS

BENEFITS:

Department of the Navy offers a [comprehensive benefits package](#) that includes, in part, paid vacation, sick leave, holidays and a 401K-type retirement plan.

This position does not incur overseas allowances. Payment of travel and transportation expenses is not authorized.

OTHER INFORMATION:

This Position is subject to Department of Defense Priority Placement Program.

This announcement may be used to fill additional vacancies.

Recruitment incentives may or may not be authorized.

A tentative offer of employment will be rescinded if the selectee fails to meet the pre-employment requirements, including failure to report to any of the scheduled appointments.

Initial tour of duty is **24** months. Family members are tied to the sponsor's tour.

In the overseas areas, access for civilian employees and their families to military medical and dental treatment facilities is on a space-available and reimbursable basis only. Medical care may be provided by host nation providers. The availability and level of care at host nation medical facilities will vary by location. Movement overseas may require you to initiate a change in your health benefits plan to ensure coverage.

The Department of the Navy uses E-Verify to confirm the employment eligibility of all newly hired employees. To learn more about E-Verify, including your rights and responsibilities, visit www.dhs.gov/E-Verify.

Dual citizenship: If you are a dual citizen, please identify the countries of citizenship. The NATO Status of Forces Agreement prohibits employment in the U.S. Civilian Component in a host nation of any person who holds dual citizenship of the U.S. and that host nation. For example: A person who holds both Italian and U.S. citizenship may not be employed in the U.S. Civilian Component in Italy; however, that person is not prohibited by the NATO Status of Forces Agreement from employment in the U.S. Civilian Component in another NATO host nation of which (s)he does not hold citizenship.
