CIVILIAN HUMAN RESOURCES OFFICE
MARINE CORPS INSTALLATION PACIFIC

ANNOUNCEMENT NUMBER: SA24750566MERR

POSITION TITLE & GRADE: Utility Systems Operator, KWB-5406-4/6

OPENING PERIOD: 22 February 2024 - Open until filled (Cutoff every 22nd of the month)

ORGANIZATION: Facility Maintenance Office, Camp Mujuk, Marine Corps Installation Pacific

DUTY LOCATION: Pohang, South Korea

PAY RANGE:

KWB-4: Between 15,812 Won and 22,571 Won per hour

KWB-6: Between 17,768 Won and 25,462 Won per hour

TOUR OF DUTY: Full-Time, 40 hours per week

AREA OF CONSIDERATION: All current USFK KN employees (Korea-wide) and outside KN applicants.

NOTE: 1. Target grade of this position is KWB-6. If position is filled at the lower grade than target grade, the incumbents will be promoted to target grade non-competitively upon satisfactory completion of the job requirements, recommendation by the supervisor, and subject to meeting time-in-grade and qualification requirements. 2. This position has been designated as KN EMERGENCY-ESSENTIAL (MISSION ESSENTIAL). KN EE (ME) Position Agreement Form (USFK Form 200EK) must be signed prior to appointment of the selectee for this position. 3. This position has been designated as essential to the basic military missions or safety and protection of human life and property under the SOFA Joint Committee Memorandum of 29-Aug-1974, at the 97th SOFA Joint Committee meeting. The occupant of this position is prohibited from participation in any collective labor disruptive actions. Participation in such action will constitute grounds for disciplinary actions as provided under the provision of USFKI 1400.01, USFK-KEU Labor Management Agreement, and Article XVII of the SOFA. 4. Relocation Allowance will NOT be authorized for the selectee from outside the commuting area.

MAJOR DUTIES: 1. Water Plant Operations. Operates and maintains electric and gas driven water and chemical pumps, water filters, chemical feeder and mixer units, gas chlorinators, rapid sand filters, mixing agitating and clarifier devices, auxiliary equipment and related electric motors, controls, gages, flow meters, valves, and control panels. Starts, stops, and controls pumps; opens and closes valves to control rates of flow of water; introduces chemical solutions, such as alum, ammonium sulfate, soda-ash, and lime through treating units in production to rate flow of water, checking constancy or variables of water flow so that proportioning devices can be adjusted accordingly. Conducts bi-hourly chemical control tests of chlorine residual near point of treatment; conducts jar tests to determine coagulant requirements; conducts pH measurements of raw, filtered and finished water; and runs tests for turbidity and alkalinity as required. Inspects and checks plant equipment for proper functioning, determining required adjustments; checks pumps for overheating; makes minor adjustments to feed mechanisms and control valves, reporting malfunctions to the supervisor. Performs preventative and operator maintenance on

plant equipment, reporting needs for repairs of greater scope. Prepares reports and maintains logbooks and records of all activities and tests. 2. Sewage Disposal. Responsible for the operation of a sewage disposal plant that provides for complete sewage treatment consisting of pretreatment, primary and secondary treatment, and separate sludge digestion. Operates valves, pumps, gates, comminutors, and other controls and equipment to move sewage through various stages of treatment. The incumbent lubricates pumps and replaces filters, maintains basic records and logs of operation and maintenance data. Collects samples of sewage to determine the amount of solids to be removed, biochemical oxygen demands, suspended and dissolved solids and dissolved oxygen demands. From the results of the tests, increases or decreased chemical agents. Trains lower graded personnel in plant operations, observes all safety rules, regulations, and procedures. 3. Power Plant Operations. Performs operation and maintenance of electric-driven generators to supply electric supply for operation of various equipment. Readies, starts, adjusts, and regulates engines by means of turning and adjusting after warm-up is accomplished. Reads and interprets instruments and meters on direct current, alternating current and feeder switchboards. Changes, opens, and closes circuits as needed. Determines and follows emergency procedures during electrical storms, commercial power failures or other trouble in the power plant or on the circuit. Changes, opens, and closes circuits as needed. Performs preventative maintenance on plant facilities, components and auxiliary equipment including feedwaters, heaters, and water softeners. Performs overhaul or repairs of plant equipment and systems by dismantling and reassembling complex components. Maintains plant(s) in a clean and orderly manner. Performs other duties as assigned.

WORKING CONDITIONS: Subject to abnormal heat, hazards of boiler or chillier explosions, high noise level, toxic fuel fumes, burns and scalding water, danger of poisonous chlorine in the event of a broken line, falls from tower or elevated walls, and danger from moving parts of machinery. May work in dirty, cramped quarters in inadequately lighted and ventilated spaces.

QUALIFICATION REQUIREMENTS:

EXPERIENCE:

KWB-04: One year of general experience.

KWB-06: One year of general experience plus one year of specialized experience.

GENERAL EXPERIENCE: Actual work experience at a trainee, helper or other work related to the trade or craft for which being considered.

SPECIALIZED EXPERIENCE: Experience at the "Junior" or higher level in the work related to trade or craft for which being considered.

ENGLISH LANGUAGE COMPETENCY: 1. The American Language Course Placement Test (ALCPT) score of 34 and Management Panel Approval are required. 2. The passing score of former English Language Proficiency Test may be substituted for ALCPT requirement. 3. The TOEFL score of 360 (score of 70 on the computer-based test; score of 22 on the internet-based test) or TOEIC score of 250 may be substituted for ALCPT requirement. TOEFL and TOEIC scores are valid for up to two years from the examination date. When selected applicant(s) do not have a valid test score, they will be tested with the ALCPT on post, or they may voluntarily elect substitute testing of the TOEFL/TOEIC off post.

SUBSTITUTION OF EDUCATION FOR EXPERIENCE: 1. Graduation from technical high school in the field, successful completion of a formal training course (at least 90 days duration) or possession of a valid license or certificate of competency issued by the ROKG may be substituted for required one year of general experience. 2. Graduation from technical junior college in the field or possession of an industrial engineer license of competency issued by the ROKG may be substituted for required one year of general and one year of specialized experience.
